Certainly Madge Kennedy's new Goldwyn nicture. "Leace It To Susan." which comes to the Mith Avenue theatre tonight, is not short-of noyshite. The piquent comediante is seen wandering over the American desert having been left behind when her train resumed its journey. She trudges through sand and sarebrush until legs after nightfall and at last finds refuge in a lonely shack. She is joined by a young man whom she vaguely remembers having been seen on the train and his promise of protection does a great deal to reassure Susan. Soon, however, a quartet of hold-up men appear. Susan recognises them as the fellows who robbed the train. At once her protector changes his tactice and becomes one of them, apparently.

In reality he knows who Susan is and pretends that he is holding her for random. He agrees to share it with the bandits if they will permit him to send a message to Susan's father. This is dose, the message at the same time telling the know when the rescuing party decounds upon Susan and saves her—all this comes out in the subsequent action. The greatest when he rescuing party decounds upon Susan and saves her—all this comes out in the subsequent action. The greatest who her "kidnaper" really happens to be known to the capitalist and what happens when the rescuing party decounds upon Susan and saves her—all this comes out in the subsequent action. The greatest surprise in Susan's life is when she learns who her "kidnaper" really happens to be.
